PAGES 1 ENCLOSURES (NO. & TYPE)

REMARKS

25X1X

1. Motor vehicles were overhauled in the Zeesen repair shop, near Koenigswusterhausen (N 53/V 02), on 3 March 1950. The shop had a monthly capacity of 120 trucks. Most of the trucks were converted for use as personnel carriers and were equipped with folding benches. Each motor vehicle had covers for the headlights. Trucks which left the repair shop were considered virtually new.
2. Trucks were driven to the shop by soldiers wearing red epaulets. The drivers are quartered in the woods near the shop while their trucks are under repair.
3. Motor vehicles are numbered when shipped in, but have only chalked letters and figures when shipped out. Deadlined vehicles were shipped by rail to Frankfurt/Oder.*

25X1A * [REDACTED] Comment: The Zeesen motor vehicle repair shop and distribution point is apparently a branch of the Berlin-Oberschoeneweide 53rd Central Repair Shop, GDR.
